Robert Juliat Roxie (CW v2)	250W	2	10.5/22.5	20.5		A		Followspots - 165mm circular gel

There are an additional 8 minuette fresnels, and 2 Source 4 Jr profiles, which are part of the theatre's hire stock. As with other hire stock items, they may be used for free by internal shows, providing they are booked before any external hirer books them - contact the technical manager for more details or to book them.

A few of the theatre's lanterns are owned by the European Theatre Group, who take them on tour each year in December - please check with the technical manager for more details if you're doing a show in December.
